

**INSTITUTE OF INDUSTRIAL ENGINEERS, INC.  
 READING PENNSYLVANIA CHAPTER  
 CHAPTER MEMBERS**

This list shows our attempt to reconstruct a complete list of Charter Members, based on a March 2003 survey of a panel of currently-active members who were among the Charter Members when the chapter was established back in 1961. Shown at the left is a list of all people who were members of the chapter during 1962-63, including but not limited to Charter Members. We used this list as a tool to help our survey panel remember the names of their fellow Charter Members, who established the chapter a year before, in 1961.

Notes:

1. Our survey panel consisted of Ed Koslowski, Don Klein, and Sid Symons.
2. If three out of three people on our panel agreed that the member was a Charter Member, then we can assume that the member was definitely a Charter Member. If two out of three agreed, then we can assume that the member was probably a Charter Member. And if one out of three agreed, then we assume that the member was possibly a Charter Member.
